

We are looking for a **Registered Nurse** to join our clinic team! We have opportunities available in the **South Puget Sound (Kent/Tacoma)**.

---

**Position:** Registered Nurse

---

**Reports To:** Area Clinic Manager

---

#### Position Overview:

The **Registered Nurse** is responsible for providing professional nursing care for patients including assessment, treatment, care planning, and medical care evaluation by following established standards and practices. This position will assist physicians and staff in coordinating patient care. In addition, this role will function as primary liaison between patients, staff and physicians.

Our *ideal* candidate will foster a patient-first attitude, has a willingness to go the extra mile for patients and is excited to work in an innovative primary care delivery model. If this sounds like you, please apply today!

**Available shift:** Candidates must be available to work Monday through Friday as well as rotating Saturdays.

#### Day to day responsibilities:

- Obtains patient consent for care and ensures patient confidentiality.
- Provides patient care based on practice guidelines, standards of care, and federal/state laws and regulations.
- Executes prescribed treatments and medical interventions, administers prescribed medications, and monitors and documents treatment progress and patient response.
- Delegates as allowed under the Nurse Practice Act. Refers to/consults with physicians, other health providers, and community resources to prevent/resolve problems or concerns.
- Educates patients and families about health status, health maintenance, and management of acute and chronic conditions.
- Documents patient assessment and intervention data using established medical record forms/automated systems and documentation practices.
- Participates in multidisciplinary teams to improve patient care processes and outcomes. Tracks quality assurance data and monitors for acute and chronic care management.
- Maintains/reviews patient records, charts and other pertinent information. Posts tests and examination results.
- Responds to/refers incoming patient treatment-related phone calls.
- Analyzes options, provides counsel to patients and families about choices and makes referrals to other providers and resources.
- Engages clients and families in the development and implementation of a care plan.
- Reads and interprets physicians' orders and notes from other providers.
- Calculates and administers drug dosages and injections and measure results.
- Maintains quality control standards and patient confidentiality.

#### Qualifications:

- Registered Nurse required; completion of nursing training from an accredited school of nursing. BSN strongly preferred.
- 1+ year of professional nursing experience; clinic experience highly desired.
- Current state registered nurse license and current CPR certificate.
- Excellent general computer proficiency with a strong working knowledge of Microsoft Office programs.
- Knowledge of professional nursing theory, regulations and practices to give and evaluate patient care.
- Calm demeanor and the ability to effectively handle emergency situations.
- Clear and effective communication skills.
- Ability to pass a pre-employment background check.
